Wide review draft of WCAG 2.1

A new Working Draft of [Web Content Accessibility Guidelines 2.1](#) has been published. This draft has all the new Success Criteria that the Working Group plans to add to WCAG 2.1. After this publication, the Working Group will work to optimize the structure of the WCAG 2.1 requirements. To support this work, the Working Group requests wide review of this draft **as soon as possible** or by **10 October 2017**. The Working Group plans to publish another Working Draft in November that incorporates the above work plus addresses remaining public comments received on this and earlier drafts. (2017 September 12)
